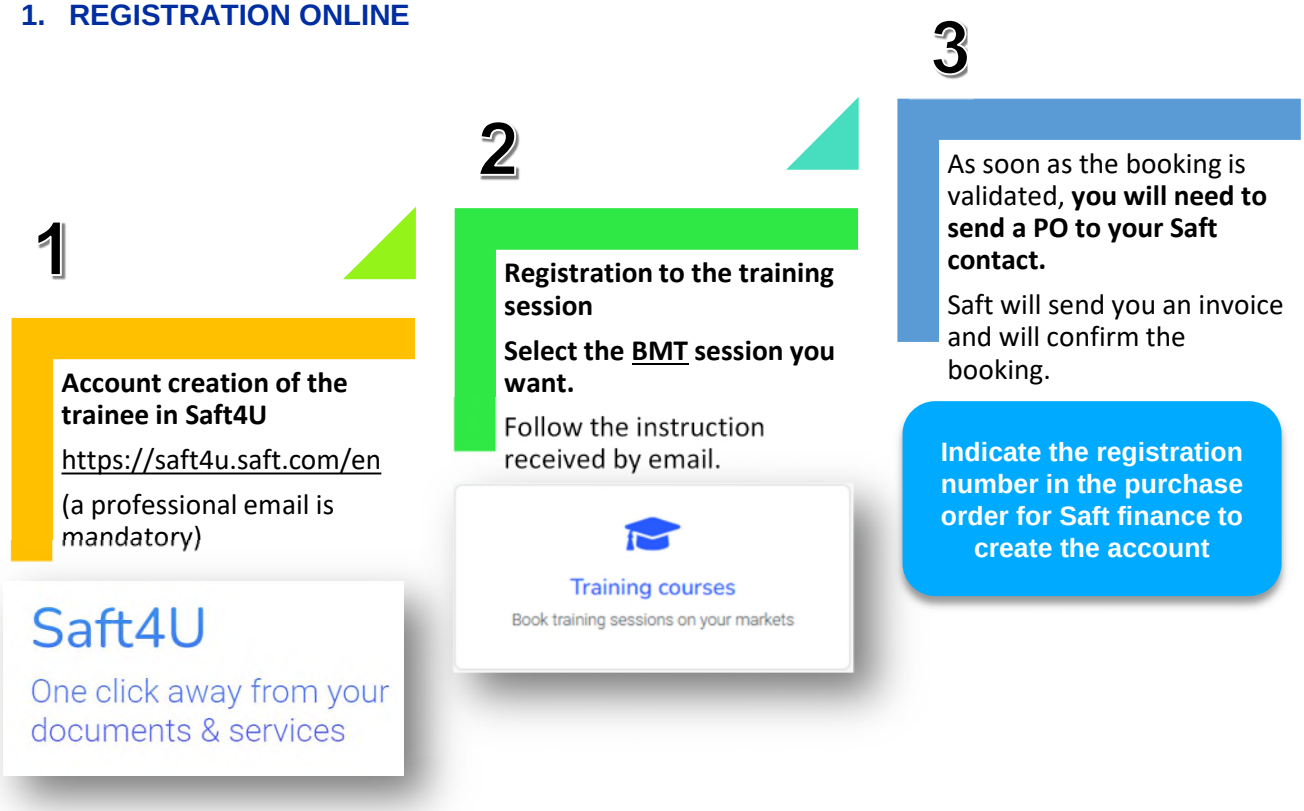
Saft Ni-Cd Aviation training information sheet
BMT - Battery Maintenance Training

Our Saft training programs assist in controlling associated operational costs and optimizing service life through proper use and maintenance of Saft Ni-Cd batteries. The goal is to operate aircraft daily safely and without incurring maintenance-related flight delays or cancellations.

1. REGISTRATION ONLINE



Saft P/N	Description	Unit price
599S17	**Training Ni-Cd - Battery Maintenance Training**	2 714 €

2. GENERAL CONDITIONS

- Appointment at the Saft entry gate at 8.30 AM.
- Courses start at 8.45 AM in France and end at 5.30 PM.
- Our training sessions may gather trainees from various companies.
- One additional language to French or English may be requested.
- Each trainee will receive a preliminary questionnaire to be filled in and sent back to Saft. This allows Saft to adapt the training session according to the skill level and technical education level of the trainees.
- Saft reserves the right to cancel or to postpone a session if the number of trainees in the same session does not meet a minimum requirement or if Saft's policies do not allow trainees from a specific country due to sanitary conditions. In such cases, the price paid by the customer is not refundable.
- Once paid, the BMT is not refundable.
- The payment must be made 3 weeks before the training session.

Specific conditions:

- In accordance with our security procedures, we are obliged to inform you of the main risks present on the Saft Bordeaux site. The Prevention Plan must be read before the training and signed at the arrival at Saft factory.
- Each trainee must bring its own Personal Protective Equipment: goggles, protective shoes, and working clothes (cotton without metallic part).
