Saft Training Aviation Ni-Cd
BMT - Battery Maintenance Training
Valdosta, GA, USA

Our Saft training programs assist in controlling associated operational costs and optimizing service life through proper use and maintenance of Saft Ni-Cd batteries. The goal is to operate aircraft on a daily basis safely and without incurring maintenance related flight delays or cancellations.

GENERAL CONDITIONS

- Two Day course:
  - Day One class schedule is approximately 9:00 AM to 5:00 PM
  - Day Two class schedule is approximately 9:00 AM to 2:00 PM
  - Arrivals at the Saft office should begin at 8.30 AM.
- Training sessions will include trainees from various companies.
- Saft reserves the right to cancel a session up until 4 weeks prior to the course date if the number of trainees does not meet a minimum requirement of 5 or if Saft's policies do not allow trainees from a specific country due to sanitary conditions.
- Training cancellation with no charge to the trainee is accepted no later than one month prior to the session.
- Course fee must be paid at least 20 business days in advance of course start date.
- **Prerequisite:**

- The Saft Valdosta site is an ITAR Controlled facility. There are areas within the facility that are controlled under the US Department of State, Directorate of Defense Trade Controls (DDTC) International Traffic in Arms Regulations (ITAR). Therefore, Saft is required to perform background checks for all visitors prior to arrival to our facility. Please be prepared to provide your Address of Residence and Country of Citizenship during the registration process.
- Each trainee may bring their own Personal Protective Equipment: goggles, protective shoes and apron if preferred. Saft can also provide this equipment.

PRICE

- Price per trainee:
  - Training: USD $ 3,257
- The training price includes:
  - Two-day training session (Lunch on both days)
  - Training handbook and all other course materials
  - Course certificate earning participant 8 hours towards FAA IA renewal IAW Order 8900.1
